TOURISTECH STARTUP FEST 2023

We gather the most innovative and disruptive startups to transform the tourism sector

Innovation often comes hand in hand with cooperation between corporations and startups. That is why **Touristech Startup Fest** is the initiative, held within the framework of **TIS**, which brings together the most innovative entrepreneurs with projects that can transform the tourism sector through technology and sustainability.

The Call for Innovation plans to convene more than 400 startups that will present their **innovative project** to be one of the 40 lucky ones who will be able to make a **pitch** in front of investors, Venture capital and leading companies on October 19th at Tourism Innovation Summit. After the pitch, a jury will select the best projects to be the winners of the Touristech Startup Fest 2023.

The startups will also have the **unique opportunity to connect with top-tier investors and corporate ventures** in the tourism and travel industry. Whether they're looking for funding, strategic partnerships, or simply exposure for their startup, the Touristech Startup Fest is the perfect place to make meaningful connections to take these innovative projects to the next level.

In addition, the startups will have the opportunity to be part of **the first world's tourism startup atlas** that we are going to design with the 400 participating projects.
